The Ubiqare Advantage

CARE+

We manage your clinical episodes in a timely manner, using Audio-Video interaction, digital homecare workflows and physical interventions. We prevent avoidable re-admissions or hospital visits for your pain, side effects and relapses.

CONTINUITY+

We bring in continuity of your specialist care to your home. Our Care Doctors and support services ensure compliance to your specialists' care protocol. Our Care doctors would be monitoring and supervising your condition regularly, using the digital platform, clinical telepresence, and physical visits.

ASSURANCE+

We have worked with patients struggling with some of the most difficult medical conditions and offered them the best medical support within the comfort of their home. Our services have not only improved the quality of life of the patient but also reduced the stress and anxiety of the families and caregivers.

Here's what some Ubiqare Users have got to say.

My father, having known he was terminally ill with renal cancer; expressed in an emotional moment - "take me home." Ubiqare allowed us to do this by supporting us in numerous ways. In those desperate times for the whole family, you made use highly functional. Your role gave us peace of mind that we were able to do what was required for our loved one.

- Son of a Patient

Ubiqare's specialized follow up medical care at home using communication platform alongwith localised ecosystem of doctors and paramedics made my life comfortable and my family tension free.

- Patient

It is difficult to put into words what a blessing your organization was for us. At no point in time, did I feel like I was handling my mom's illness alone. Your services of audio-video calls for regular monitoring and updating the specialist of my mom's condition, connecting us to agencies for medical equipment, appointing a qualified nurse, etc. were exceptional.

- Daughter of a Patient

Just 'Ubiqare' for your care

Ubiqare complements the ongoing treatment of the disease with specialized supportive care at home.

We bring continuity of specialized care and required medical attention to improve quality of life of the patient and reduce avoidable re-admissions.
